

ABOUT ME

Cory NP, Injector & Owner

Meet Cory Wilbanks, DNP, APRN (dual-certified AGACNP-BC/FNP-C) and the founder of Pose Aesthetics & Functional Wellness in Memphis—equal parts clinician, operator, and unapologetic plant daddy. When he's not running clinics or writing protocols, he's coaxing 100+ houseplants to thrive (yes, I water them on a schedule and, yes, they have names). He has led teams of 100+, opened multiple locations, built QA programs with rigorous chart reviews, and taught future nurses as an Assistant Professor—work that's earned him recognition like Tennessee's "Rising Star Nurse Leader." His clinical background spans hospital medicine, primary care, GLP-1 weight management, and aesthetics (TOX, microneedling, peels, filler) In short: Cory loves beautiful outcomes—on skin, in systems, and on his monstera. 🌿
